

Grede II LLC has an opening for an IT Business Analyst - Odyssey ERP at its location in Southfield, Michigan.

Job duties include:

1. Perform system Applications Security and Profile maintenance used in B&L's Foundry Odyssey ERP software system which runs within a Microsoft environment.
2. Design and maintain Data Views, Screen Designs and Intelligent Views within B&L's Foundry Odyssey ERP system.
3. Work with End Users on approved requests from start to completion.
4. Provide End User support for all B&L's Foundry Odyssey ERP system Modules.
5. Creation of UDF's (User Defined Fields) within the framework of B&L's Foundry Odyssey Progress Database.

Position requires: Bachelor's Degree in Computer Systems Engineering, Information or Computer Systems, Information Technology, or Computer Science or a related field, or foreign equivalent education, and 4 years of experience working in the foundry industry in the position of Senior IT Controls Analyst, Senior Analyst, or other Computer Systems Analyst positions. 4 years of experience is required in each of the following:

1. Providing IT support for B&L's Foundry Odyssey ERP software in application security and profile maintenance.
2. Working in Odyssey Data Views, Screen Design and Intelligent Views.
3. Providing IT support in B&L's Foundry Odyssey ERP for End Users, for all Odyssey ERP system Modules.
4. Creation of UDF's within the framework of B&L's Foundry Odyssey Progress Database.
5. Working with Microsoft Office applications.

Experience may be obtained concurrently.
